

# Configure Oomnitza for Single Sign-On

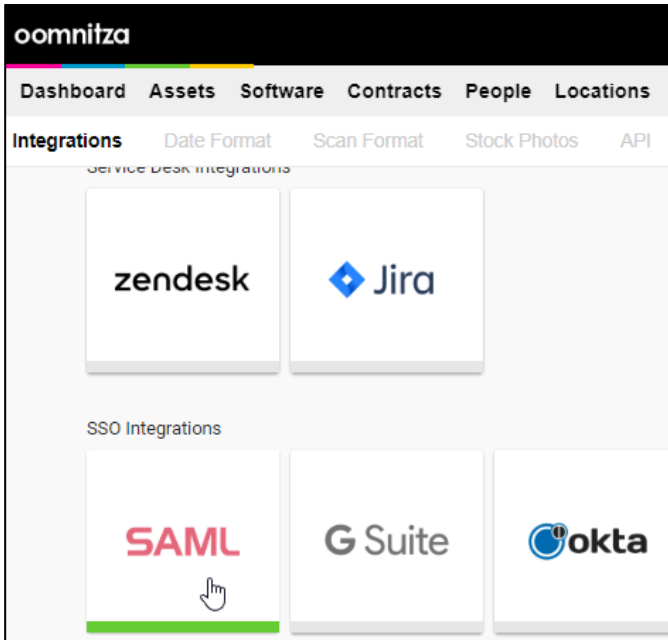

Configuring Oomnitza for SSO enables administrators to manage their users using Citrix Gateway service. Users can securely log on to Oomnitza using their enterprise credentials.

To configure Oomnitza for SSO through SAML, follow the steps below:

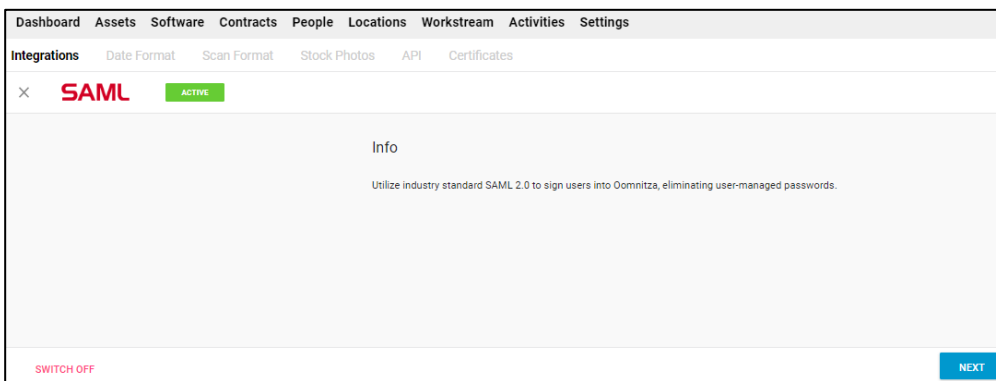

1. In a browser, type the URL, [https://<your\\_organization\\_domain>.oomnitza.com/login](https://<your_organization_domain>.oomnitza.com/login) and press **Enter**.
2. Type your credentials and click **Login**.

A screenshot of the Oomnitza login page. The page has a black header with the word "oomnitza" in white. Below the header is a large white area. In the bottom right corner of this area, there are two input fields. The first is labeled "User Name" and has "Username" written inside it, followed by a small person icon. The second is labeled "Password" and has "\*\*\*\*\*" written inside it, followed by a small lock icon. Below these fields, there is a blue "Login" button and a blue link that says "Forgot your password?".

3. On the Dashboard page, click **Settings**.
4. On the Integrations page, click **SAML**.

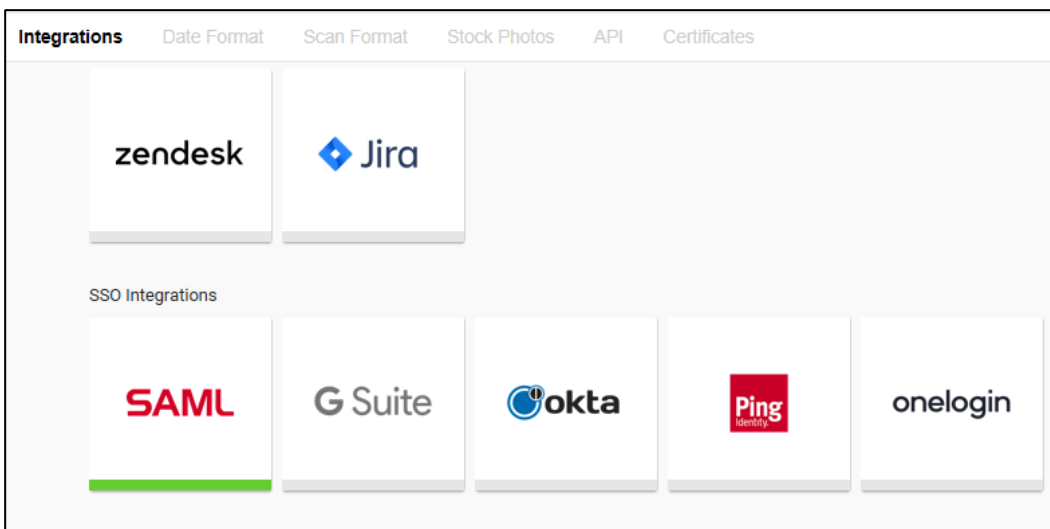

5. On the SAML page, click **NEXT**.

6. On the SSO Integration page, enter the following:

- i. **Enter your SSO URL:** Enter the IdP URL, SAML 2.0 endpoint, for example, `https://example.com/saml/login`
- ii. **Upload Certificate:** To upload the certificate, click **Browse** and select the certificate.

Click **Finish**. The SAML configuration is completed.

For SP initiated flow, click **Single Sign-On (SSO)** link to log in:
