# Configure POPin for Single Sign-On

Configuring POPin for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to POPin by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

To configure POPin for SSO by using SAML:

1. In a browser, type https://app.popinnow.com/#/signin and press **Enter**.

2. Type your POPin admin account credentials (**Work Email**) and click **Submit**.

3. In the login page, click the user account in the top-right corner and select **Enterprise Dashboard**.

4. In the dashboard page, click **Settings**.
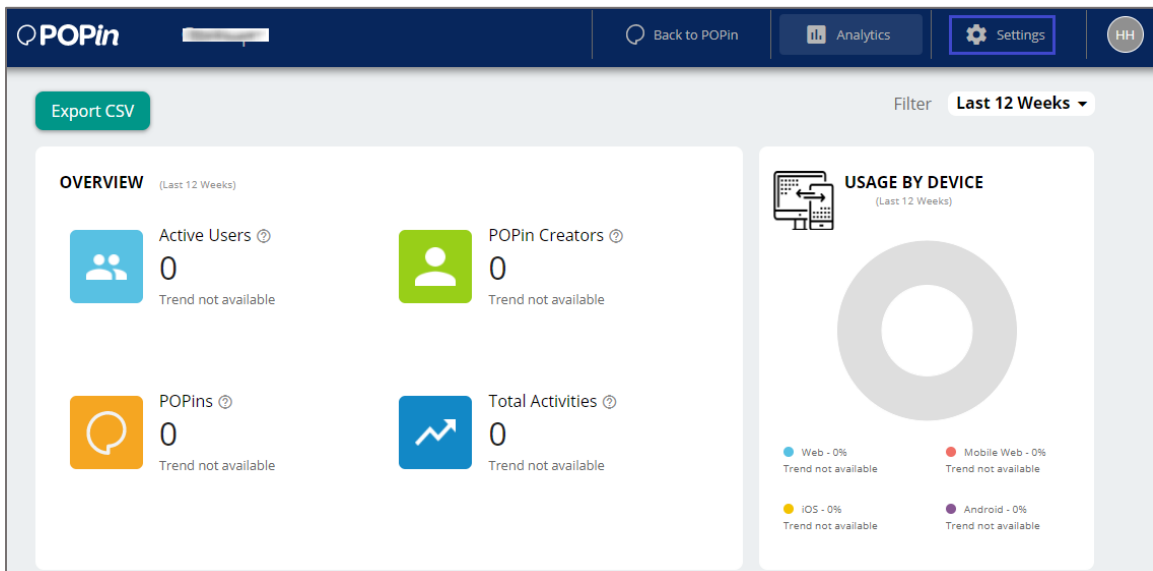

5. Scroll down and select **SAML 2.0 Single Sign-On** under **AUTHENTICATION**.

6. Upload the IdP metadata XML file or add the logon URL with App ID.

AUTHENTICATION

○ **Standard Authentication**
POPin standard magic link and username/password authentication

◉ **SAML 2.0 Single Sign-On**
POPin supports Azure, Okta, and OneLogin, or your custom SAML 2.0 solution.
If you need help configuring your Single Sign-On integration, Learn More or Contact Us.
