Configuring Datadog

Configuring Datadog for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Datadog by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

To configure Datadog for SSO by using SAML:

- 1. In a browser, type <u>https://www.datadoghq.com/</u> and press **Enter**.
- 2. Type your Datadog admin account credentials (Email and Password) and click Log in.

3. In the top-right corner, click the **Settings** icon and select **Configure SAML**.

- 4. In the **Settings** page, click the **CONFIGURE SAML** tab.
- 5. To enable SAML, select the IdP metadata file from the local system and click **Upload File**.

PLAN	BILLING HISTORY	RENAME ORGANIZATION	CONFIGURE SAML						
✓ S	SAML is ready								
End	able								
IdP Entity id: https://ug3									
Uplo	Brow Dad File Cancel	se							

Note: To download the file, go to the IdP, select Datadog and click **Export** under the **SaaS Application** tile. The link opens in a new window. Right click and select **Save As** to save the file to your local system.

Name	ICON UKL
Name Datadog	/logon/Datadogpn
Name Datadog Bookmark	/logon/Datadogpn

6. After you upload the file, click **Enable**.

Note: After you enable SAML, SSO URL is displayed and the following status is shown: **SAML** is enabled

- 7. To add users, click the **Team** icon at the top-right corner.
- 8. In the **Team** page, enter the email addresses of the users to be added and click **Invite**.
