

Configuring Lifesize

Configuring Lifesize for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Lifesize by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

To configure Lifesize for SSO by using SAML:

1. In a browser, type <https://manage.Lifesizecloud.com> and press **Enter**.
2. Type your Lifesize email address in **Enter your email address** and click **Next**.

A screenshot of the Lifesize login page. The page has a dark blue header with the Lifesize logo (a white circle with a stylized 'L' inside) in the top left corner. Below the header, the text "Welcome to Lifesize" is displayed in a large, dark font. Underneath, it says "Please sign in to get started." followed by a smaller text prompt "Enter your email address" above a white input field. A blue button labeled "Next" is positioned below the input field. At the bottom of the page, there is a small, underlined link that says "Forgot password?".

Welcome to Lifesize

Please sign in to get started.

Enter your email address

3. Type your Lifesize **Password** and click **Sign In**.

The image shows the Lifesize login page. At the top is the Lifesize logo. Below it, the text reads "Welcome to Lifesize" and "Please sign in to get started." There are two input fields: "Enter your email address" and "Enter your password". A blue "Sign In" button is located below the password field. A link for "Forgot password?" is at the bottom.

4. In the user profile menu that is present at the top-right corner of the screen, click **Advanced Settings** from the drop-down menu.

- To create single sign-on, click **SSO Configuration** present in the left panel.
- In the **SSO Configuration** page, enter the values for the following fields:

Field	Description
Identity Provider Issuer	IdP issuer value
Login URL	IdP logon URL
X.509 certificate	Copy and paste the IdP certificate. The IdP certificate must begin and end with -----Begin Certificate----- and -----End Certificate----- Note: The IdP certificate is provided by Citrix and can be accessed from the link below: https://ssb4.mgmt.netScalerGatewayDev.net/idp/saml/templatetest/idp_metadata.xml
Enable SSO	Selecting this option activates the single sign-on option. It will not prompt you for password whenever you log on to the application.

The screenshot displays the 'SSO Configuration' page. On the left, a navigation sidebar shows 'SSO Configuration' as the active menu item. The main content area is titled 'SSO Configuration' and contains the following sections:

- Identity Provider Settings:** Includes input fields for 'Identity Provider Issuer', 'Login URL', and a large text area for the 'X.509 Certificate'.
- SAML Attribute Mappings:** Includes input fields for 'First Name' (with 'firstname' as a placeholder), 'Last Name' (with 'lastname' as a placeholder), and 'Email' (with 'email' as a placeholder).
- Check Configuration:** A 'Test' button to validate settings against the IdP.
- Relay State:** A text field containing the URL 'https://webapp.lifesizecloud.com/?ent=57f727f6-027c-41cf-b957-1277c1201bcf'.
- Enable SSO:** A checkbox that is currently checked.

An 'Update' button is located in the bottom right corner of the configuration area.

- Finally, click **Update**.
