Configuring Nuclino

Configuring Nuclino for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Nuclino by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

To configure Nuclino for SSO by using SAML:

- 1. In a browser, type <u>https://app.nuclino.com/login</u> and press **Enter**.
- 2. Type your Nuclino admin account credentials (Email and Password) and click LOG IN.

5. In the **Team settings** page, scroll down and select the **SAML-based single sign-on (SSO)** option under **Authentication**.

6. Enter the values for the following fields:

Field Name	Description
SSO URL	IdP logon URL
Entity ID	IdP entity ID
Public certificate	Copy and paste the IdP certificate. Note: The IdP Certificate is provided by Citrix and can be accessed from the link below: <u>https://ssb4.mgmt.netscalergatewaydev.net/idp/saml/templatetest/i</u> <u>dp_metadata.xml</u>

Authentication

- Nuclino account and password
- SAML-based single sign-on (SSO)

③ Setup guide

Read more about how to set up SAML-based single sign-on (SSO) in our <u>setup guide</u> . After you have set up SSO,
people can use your team URL (<u>https://app.nuclino.com/</u>) to sign up or log in to this team via SSO or
continue using their Nuclino account.
