

# Configuring Pingboard

Configuring Pingboard for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Pingboard by using the enterprise credentials.

## Prerequisite

Browser Requirements: Internet Explorer 11 and above

## To configure Pingboard for SSO by using SAML:

1. In a browser, type <https://pingboard.com/> and press **Enter**.
2. Type your Pingboard admin account credentials (**Email** and **Password**) and click **Sign In**.

**Pingboard**

## Sign In

Is your company new to Pingboard? **Get started for free.**

**Sign In**

[Forgot password?](#)

OR

 **Sign In with Google**

3. To enable and configure SSO, the user must contact Pingboard support team and provide them with the following:

Required Information	Description
IdP metadata	The IdP metadata URL is provided by Citrix and can be accessed from the link below: <a href="https://ssb4.mgmt.netScalerGatewaydev.net/idp/saml/templatetest/idp_metadata.xml">https://ssb4.mgmt.netScalerGatewaydev.net/idp/saml/templatetest/idp_metadata.xml</a>
Identity provider name	Citrix Netscaler
NameId	EmailAddress
Attribute	Firstname, lastname and email
Text on sign in button	Sign in with Netscaler.

**Note:** The support team will configure the SP from the backend.
