

Configuring RealtimeBoard

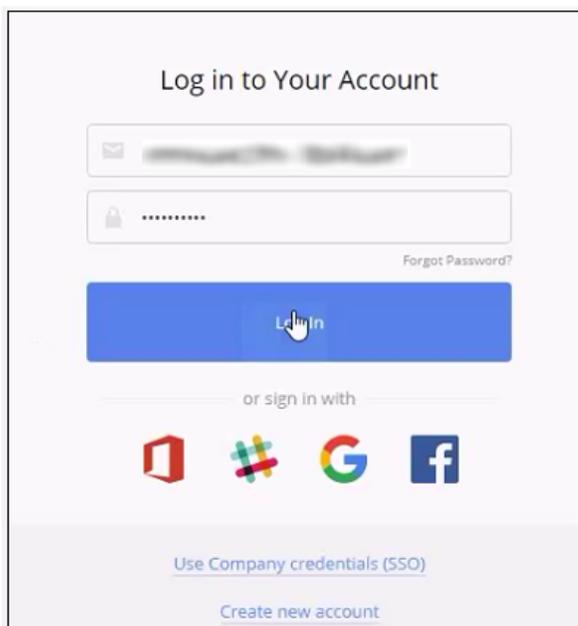

Configuring RealtimeBoard for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on RealtimeBoard by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

To configure RealtimeBoard for SSO by using SAML:

1. In a browser, type <https://realtimeboard.com/> and press **Enter**.
2. On the home page, click **Start**.
3. Type your RealtimeBoard admin credentials (**Email** and **Password**) and click **Log in**.

Log in to Your Account

Log In

or sign in with

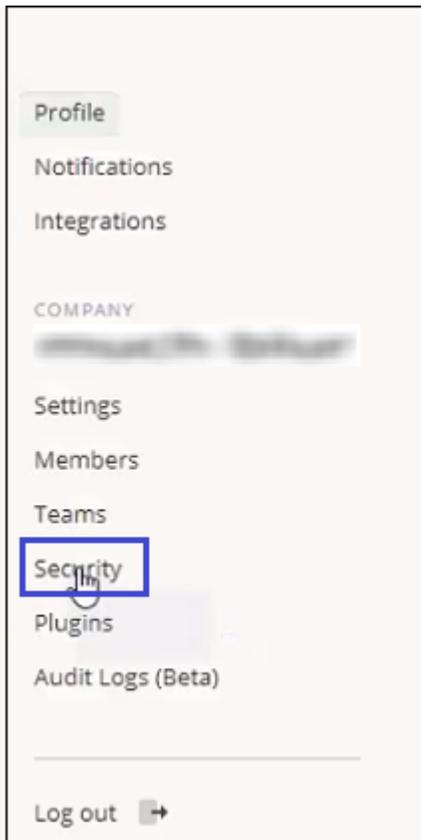

[Use Company credentials \(SSO\)](#)

[Create new account](#)

4. To create SSO, click the user profile that is present at the top-right corner of the screen, and select **Settings**.

5. Under **COMPANY**, click **Security**.

6. In the **Security** page, enter the values for the following fields:

Field	Description
Enable SSO/SAML	Enable this option to allow SSO
SAML Sign-in URL	IdP logon URL
Key x509 Certificate	Copy and paste the IdP certificate. The IdP certificate must begin and end with -----Begin Certificate----- and -----End Certificate----- Note: The IdP certificate is provided by Citrix and can be accessed from the link below: https://ssb4.mgmt.netscalergatewaydev.net/idp/saml/templatetest/idp_metadata.xml
Domains	Email domain that authenticates your SAML server.
Automatically add all newly registered users from the listed domains to your Company Account	Select the check box to add new registered users from your company,
Choose a default team for newly registered users	Select the newly registered team from the drop-down list.

Wipro Test Company
WT Security

Enable SSO/SAML

All users on the Company plan will authenticate using SSO (personal login credentials will no longer work).

SAML Sign-in URL

Key x509 Certificate

Domains

Specify email domains to be allowed to authenticate via your SAML server. We need a list of all the email domains that your users will be using to access RealtimeBoard. Public domains (e.g., gmail.com, outlook.com, etc.) are not permitted.

Automatically add all newly registered users from the listed domains to your Company Account

Choose a default team for newly registered users

Save Cancel

7. Finally, click **Save**.

Note: A confirmation message indicating that the SSO/SAML configuration has been updated appears.
