Configuring SproutVideo

Configuring SproutVideo for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to SproutVideo by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

To configure SproutVideo for SSO by using SAML:

- 1. In a browser, type <u>https://sproutvideo.com</u> and press **Enter**.
- 2. Type your SproutVideo admin account credentials (**Email Address** and **Password**) and click **LOG IN**.

| Login to yo | ur account |
|-------------------------------|----------------------|
| Email Address | , |
| Password | Forgot your password |
| Keep me logged in for 2 weeks | |
| 100 | 2 IN |

3. On the profile page, click **SITE EDITOR** from the main menu.

4. In the left panel, click **Advanced Settings** under **Home**.

5. Provide the relevant details.

| Field | Description |
|--|--|
| Require Password to Access Video Site | Password is not required if the Access to Video Site is set as Public . To change settings, navigate to Privacy Settings in the home page. |
| Allow Viewer Logins to Self-Manage | This field is optional. Enable this option, if you wish to password-protect your video. |
| Enable SSO for Viewer Authentication | Enable this option. Note: This option authenticates your viewer by an Identity Provider, before they logon and access your video content. |
| SAML SSO URL | IdP logon URL Make a note of the Assertion Consumer Service (ACS) URL. This URL is used for testing and IdP configuration. |
| Certificate Fingerprint | Copy and paste the IdP certificate fingerprint from the <u>https://www.samltool.com/fingerprint.php</u> link, select sha1 in Algorithm and click CALCULATE FINGERPRINT. |
| Remote Logout URL | IdP logout URL |
